EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows:

The title was amended to read as follows:

Cigarette holding device ~~and methods for using same~~

This application is in condition for allowance except for the presence of claim 6 to an invention non-elected without traverse. Accordingly, **claim 6 has been cancelled**.

REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance: the cited prior art fails to disclose or reasonably suggest a device for extinguishing and retaining a cigarette having two axially spaced circumferential bands extending inwardly from the claimed inside diameter of the claimed tube recited in claim 1.

Williams, US 3,336,929, discloses a compressed cigarette holder tube to hold a cigarette but fails to disclose or reasonably suggest two axially spaced circumferential bands extending inwardly from the inside diameter of a cigarette holder tube. Williams circumferential band is due to the curvature of screw-on neck 16 to provide an attaching means to tube portion 8 of Williams. Consequently, Williams fails to disclose or reasonably suggest providing an additional circumferential band on the screw-on neck 16.

CONCLUSION

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
